

WHAT ARE THE CS GAMES?

The Computer Science Games are a collegiate competition that includes challenges from all aspects of computing. The Games are a weekend long thrill ride with logic puzzles, difficult algorithms, intense video game competitions, social activities, and of course, programming. Organized by students from different universities every year, the CS Games is open to all undergraduate students. Teams are composed from 7 to 10 skilled people, each participating in multiple simultaneous challenges.

WHY PARTICIPATE IN CS GAMES?

- Challenge your programming skills;
- Meet undergraduate students from across Canada and North America;
- Compete (and win!) throughout different type of competitions;
- Connect and network with our sponsors between the competitions ;
(For example : Google, Mirego, Ubisoft, Shopify and more)
- Last but not least....**HAVE FUN!**

WHERE AND WHEN ARE CS GAMES?

This year's CS Games will be held in Montreal at Ecole de technologie superieure (ETS). It will take place from March 13th to 16th 2020. The weekend starts Friday afternoon and it ends with the banquet on Sunday night.

HOW TO PARTICIPATE IN CS GAMES?

Registration will open on November 8th during the Launch Party which will be at Resto-pub Le 100 genies in Montreal. Each team must have between 7 to 10 members and must be composed of **undergraduate students only**. There can only be **two teams** from the same university and the price for each participant is around 200\$. The ticket includes the hotel accommodation for the 3 nights of the competition, a welcome goodies package, all meals and activities.

ABOUT THE COMPETITIONS

There is approximatively 15 competitions of 2-3 participants each, so every team member does around 3 competitions during the weekend. Competitions subjects vary from year to year but it usually includes : Artificial Intelligence, Relay Programming, Theoretical Computer Science, Sport, Gaming, Reverse Engineering, Mobile, Web, Security and more!

There's also long running competitions like puzzle hero during your free time!

PREPATATION BEFORE THE CS GAMES

There's a bit of preparation for every team before heading to the CS Games weekend. All the information are on our Website : <http://csgames.org/corpo/the-event/flash-out-contest/>

GET READY. PREPARE YOUR FLASH OUT!
