Dear Student,

At Pueblo Science, we believe in a world where all children can become part of the next generation of innovators. That’s why we are committed to engaging and inspiring youth to pursue a lifelong interest in Science, Technology, Engineering and Math.

To achieve our mission, we regularly organize science outreach events. That’s why we are organizing a Robotics Competition at the Dufferin Mall (open to every child 8 years or older) on March 15.

And this is where you come in:

**WHO YOU ARE**
If you are a student (undergraduate or above), we need you!
Yes, it’s a Robotics Competition, but no, you don’t need to know how to code nor currently pursuing a degree in STEM.

**YOUR MISSION**
Assist children who participate in the Robotics Competition. 
Ensure that the competition goes smoothly.

**WHEN**
The Robotics Competition will happen on March 15.
You can volunteer for one or two shifts: 9 am - 1:30 pm | 1 am - 5:30 pm
Training session will happen on March 9 at 2 pm.

**WHAT’S IN IT FOR YOU**
The joy and achievement to help children have fun, compete, innovate and, MORE IMPORTANTLY, make science attractive and accessible (+ every volunteer will receive a Pueblo Science tee-shirt + we will provide lunch for volunteers doing 2 shifts).

**WHO WE ARE**
Pueblo Science is a Toronto-based charity focused on advancing science education in low-resource communities in Canada and in developing countries. Since it was founded in 2010, Pueblo Science’s programs have impacted an estimated 300,000 children. Our local and international programs are designed to engage students and spark their interest in science through active, hands-on learning experiences, discovery, experimentation and problem-solving opportunities. Our vision is that these students will become the next generation of innovators and problem solvers who can impact the societies they live in.

**HOW TO APPLY**
You can directly sign up to the event here: [https://goo.gl/forms/aZj7Tvo19evau0ik1](https://goo.gl/forms/aZj7Tvo19evau0ik1)
If you would like to know more, you can contact: [info@puebloscience.org](mailto:info@puebloscience.org)

Please feel free to forward this email to any student who might be interested in volunteering. Any help will be much appreciated!
